Other [Stack Overflow](#)

Back in the 1998 when I was working on another important [LEGO](#) project I made a decision that when I grow up, I want to be a real architect...

... Software Architect

Technologies Darker color means bigger experience.

| | | | | | | | | |
|--------------|---------------------|-----------------|-------------------|-------------------|-----------|-------------|----------------|------------|
| Backend | Symfony 2 | PHP 5.3-5.5 | Doctrine | REST API | Node JS | Express JS | Elastic Search | |
| Frontend | Bootstrap | Twig | Responsive Design | jQuery | HTML5 | CSS3 | Less | Angular JS |
| Server | Ubuntu | Debian | Nginx | Apache | MySQL | PostgreSQL | Amazon AWS | MongoDB |
| Development | GIT | PHPStorm | Vagrant | | | | | |
| Testing & CI | Behat | JSHint | PHPSpec | PHPUnit | Travis CI | Scrutinizer | | |
| Integrations | Amazon AWS | Google Maps API | Facebook API | Paypal API | | | | |
