Other [Stack Overflow](#)

Back in the 1998 when I was working on another important [LEGO](#) project I made a decision that when I grow up, I want be a real architect...

... Software Architect

Technologies Darker color means bigger experience.

Backend	Symfony 2	PHP 5.3-5.5	Doctrine	REST API	Node JS	Express JS	Elastic Search	
Frontend	Twitter Bootstrap	Twig	Responsive Design	jQuery	HTML5	CSS3	Less	Angular JS
Server	Ubuntu	Debian	Apache	Nginx	MySQL	PostgreSQL	Amazon AWS	MongoDB
Development	GIT	PHPStorm	Vagrant					
Testing & CI	Behat	JSHint	PHPSpec	PHPUnit	Travis CI	Scrutinizer		
Integrations	Google Maps API	Facebook API	Amazon AWS	Paypal API				
Workflow	Agile Methodologies	BDD	TDD	DDD				
Other	Capifony	UX tools	Wordpress	SEO Optimizations				

Experience Corporate and project experiences

12/2010 - 02/2014	Lead Developer for Laboratorium EE company (Warsaw, Poland). Working with a team of frontend and backend developers. Making sure that project meets client's requirements. Choosing the best technology for the task. Estimates and code review.
10/2011 - present	Lead Backend Developer for SEO Rank Monitor startup SERP Tracker powered by the Symfony framework and NodeJS. I have rewritten an entire application from 1.2 to the 2.x version of the Symfony framework.
2006 - 2011	Freelance Developer for many clients During that time I worked on many small projects as a part time job. It was a really long time ago :)
